### Cardiology Specialist Report

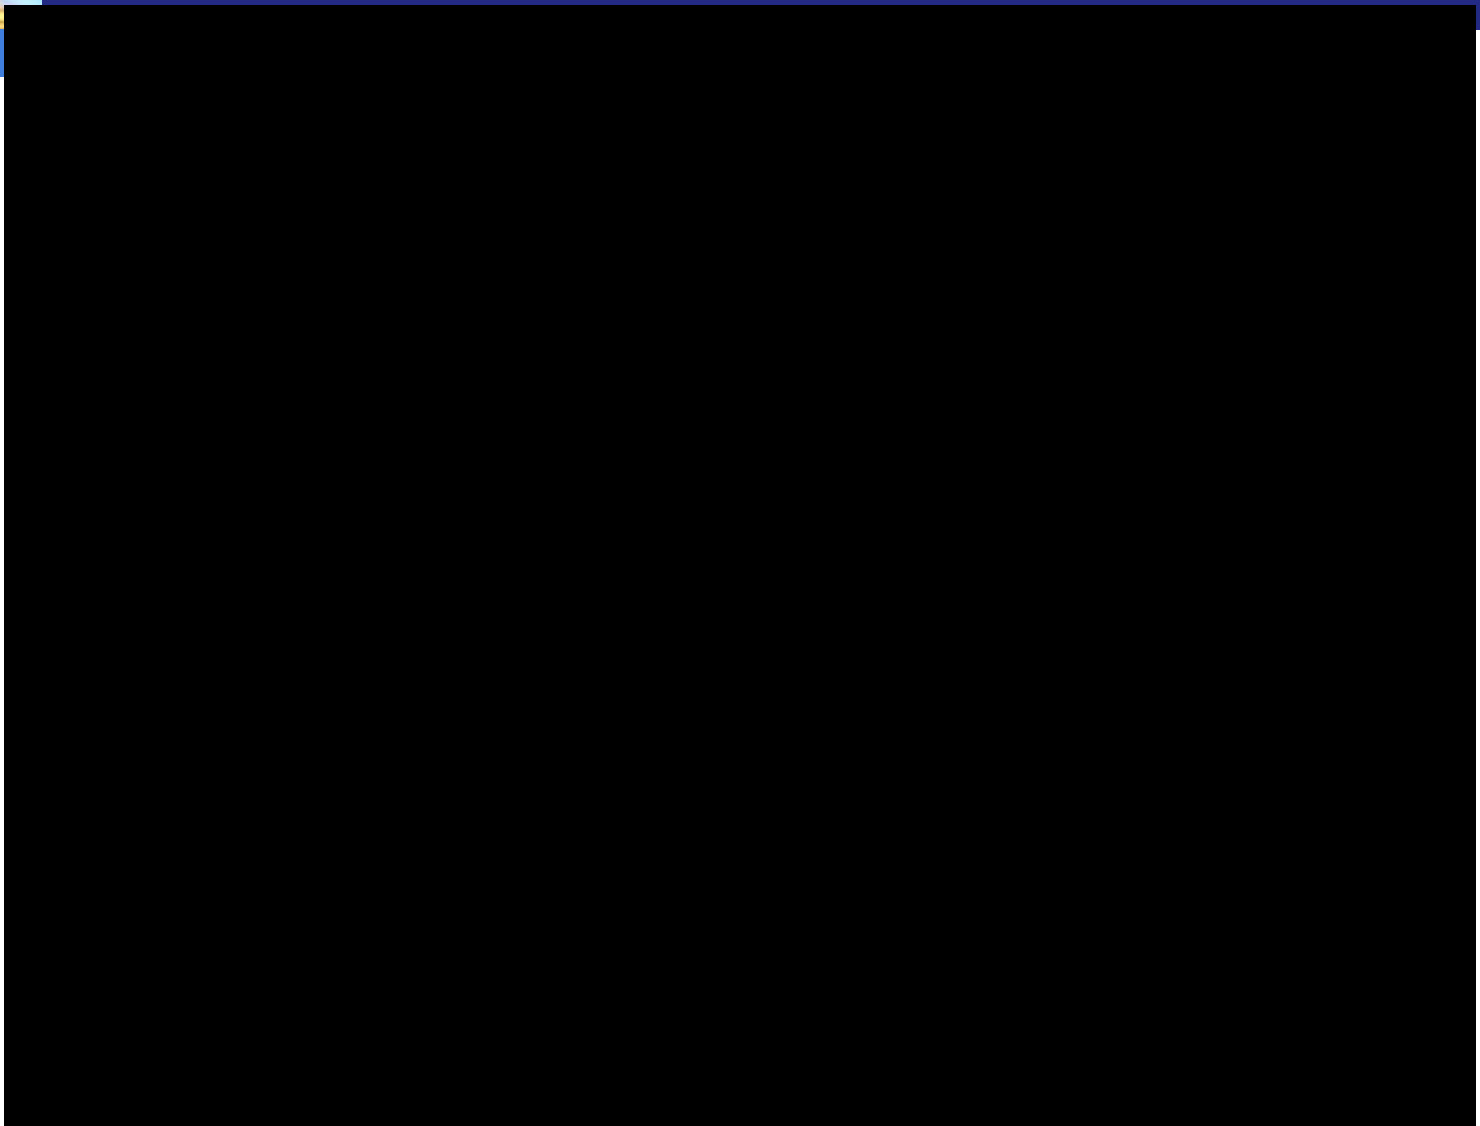

Measure	2005	2006	2007	Target	Description
<b>Admission</b> 300 Concomitant Admission	88.3%	88.0%	88.0%	88.0%	Percentage of CPOs patients with at least 100 days of care for the most serious ICD-9-CM diagnosis in all months covered, per 100 admissions of all types, excluding emergency department admissions.
<b>Member Satisfaction</b> Overall of Care Communication with PCP Office	86.3%	86.4%	86.4%	86.4%	Percentage of CPOs patients with at least 100 days of care for the most serious ICD-9-CM diagnosis who responded to the member satisfaction survey, survey which is administered by physicians.
<b>ED Utilization (Emergency) Practice</b> Hospital Admissions (ICD-9)	1277	1277	1277	1277	The number of EDs per 100 medical encounters (ICD-9-CM diagnosis) which were the most serious diagnosis in the 100-day period as a patient's most serious diagnosis in any 100 days.
<b>COMPREHENSIVE (P4P Members)</b> Practice Continuity Index	0.75-0.89 1.00-1.18	0.90-1.00	0.90-1.00	0.90	Continuity of care (adjusted measure of continuity of medical services).

The reporting period ends 6/30/05 for all measures.

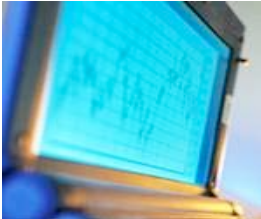

\*\* Indicates there were not enough members to qualify for the measurement.

\*\*\*Note: To give credit for those who are not using excessive SARA and are on a long-term contract, these members are added into both the numerator and denominator.

Total payout per member per mo (capped at \$ 50)
Total member months (January 2005 - December 2005)
Total P4P Payout
Total Possible P4P Payout Amount a physician would have received if score was high enough to receive the max

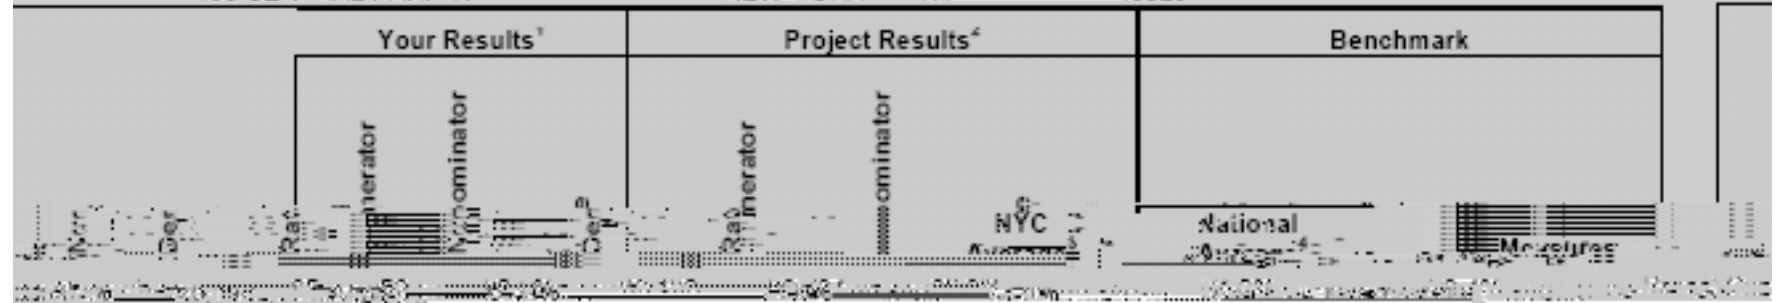

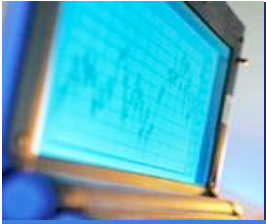

# New York Multi-Payer Data Reporting Project

Provider Name: Paul Springs License Number: 000003  
 Address: 133 CENTRAL PARK W NEW YORK NY 10023

Metric	Your Results (%)	Your Results (Denominator)	Your Results (Generator)	Project Results (%)	Project Results (Denominator)	Project Results (Generator)	Benchmark (%)	Benchmark (Denominator)	Benchmark (Generator)
Cervical Cancer Screening	77.4%	72,028	89,511	79.0%	80,996	80.9%	80.9%	89	115
Colorectal Cancer Screening	55.5%	56,585	101,984	n/a	n/a	49.0%	49.0%	83	172
Comprehensive Diabetes Care - HbA1c Tested	79.4%	13,782	17,337	86.0%	86,000	92.5%	92.5%	44	52
Comprehensive Diabetes Care - LDL-C Screening Performed	91.3%	15,834	17,337	95.0%	86,000	94.9%	94.9%	49	52
Comprehensive Diabetes Care - Nephropathy monitored	50.0%	3,005	17,337	80.0%	86,000	85.5%	85.5%	26	50
